

WEBSITE UPDATED!

The Pool Systems website has been recently updated and is a valuable sales tool for retailers of pool supplies.

The website includes downloadable images, information on new and existing products, product manuals, brochures and catalogues, and can be viewed now at www.poolsystems.com.au

NEW PRODUCT!

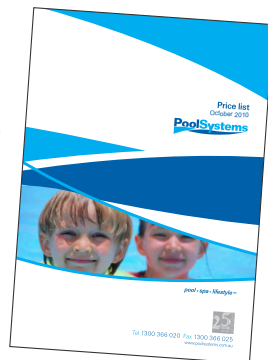

Pool Systems is pleased to announce the arrival of the Hose Holder. This innovative, but simple, gadget allows neat and correct storage or display of automatic pool cleaner hose lengths. The Hose Holder can be clipped into slat wall, or permanently screwed into a flat surface, and is suitable for the homeowner or as creative display in a pool shop. The Hose Holders are in stock and available now for a small charge at Pool Systems.

ZAS150 Slat Wall Hose Holder Trade \$5.95 +GST

2010 PRICE LIST

Pool System's new price list is out now. **Look out for all new products listed in bold.**

Test Meters

1

2

1. The SensoDirect Salt 110 Test Meter is a general purpose salt meter for applications including Swimming Pools & Aquariums. The water resistant front panel with easy to read LCD display and rubberised function keys makes the SensoDirect an ideal tool for Pool Technicians.

2. The T11 TDS Meter is an advanced micro controller based instrument. It's designed to provide portable water testing relating to conductivity.
